

As Hawks Gym gets ready to expand, sanitation, service are top priorities of club

By Chris Twist

Hawks Gym & Spa's Owner Randy Lange has teamed up with Award-Winning Business Owner Bob Townsend to take Hawks gym and spa to the next level. Randy & Bobby have been working on taking Hawks Gym & Spa The next level for the last four years with remodeling and expansions.

features, nude yoga classes, landscaping, safety features, themed events and much much more! All of these changes will make time spent at Hawk's Gym even more erotic, sensual, and carnal.

This expanded size is expected to make it much easier for people to do what they want while also feeling more exclusive at the same time. Bobby

staff will be certified and trained and OSHA standards will be maintained.

Bobby Townsend also wants to emphasize, "At Hawks Gym & Spa we take pride in on how clean we keep the place. We use "Hospital Grade" chemicals for cleaning. This may cost a lot extra, but for Hawks Gym & Spa to stay at the high standard of keeping it fresh and clean it's worth every dollar. Hawks Gym & Spa has cleaning staff on duty 24 hours a day, seven days a week. Bobby Townsend said "We are very strict about how we keep our facility so that it is always fresh and clean for all of our customers and guests. I want all of our guests and customers, local and visiting, to have that wow factor when visiting our facility. When you come to Vegas you think 'the top of all tops' and you want it to be the most amazing experience you can have."

Sites and apps like Grindr, Growl, Scuff, and Adam 4 Adam are really the new generation of bookstores, bath houses and social clubs.

These apps and sites can be fun and enjoyable but are they a safe experience? Bobby Townsend had met somebody from a site for men and was robbed at gunpoint. These types of sites are not necessarily the safest and you don't always meet the person you think you're going to meet.

You could meet somebody with a

Randy asked Bob to take over being the general manager, operations director and private event coordinator and the flow and operations of the business design. While Owner Randy Lange & Bobby Townsend are business partners, they are also best friends.

According to Bobby Townsend, the company is more than just a business; Hawk's Gym & Spa sincerely cares about its employees the Las Vegas GLBT Community. About the staff, Bobby Townsend said and Randy Lange agrees, "Hawk's Gym & Spa would not be what it is today without the amazing commitment, care and love that our staff gives to each and every one of our customers."

Hawk's Gym is about 6,600 sq. ft., but this is changing in 2018, Hawk's Gym will expand to 10,500 sq. ft., almost twice its current size. Given this growth, Hawk's expanded size will include new: VIP rooms, themed play areas, larger steam room, carpeting, expanded locker rooms, light inside and out, water

Townsend explained that "Hawk's Gym & Spa will also be opening 'Hawks Cantina.' The Cantina will provide food, such as prepackaged sandwiches, mozzarella sticks, onion rings, and personal pizzas to relish during visits to the gym. All of this will make visits to Hawk's Gym & Spa even more fabulous and remarkable."

In "taking it to the next level" all of the employees will be required to have been certified in CPR and Basic First aid training (coming from the Southern Nevada Health District). This is in addition to the currently required to have sheriff cards and health cards. Should any problems happen, these workers are ready to help. The staff will also know about safe and sanitary food handling. All

Customer safety is a major selling point at Hawks

fake profile and they may not even be the person pictured. These people sometimes have hidden agendas such as robbing your house or robbing you; hurting you; or the person may meet up with you and then other people show up and gang up on you, hurt you or rob you.

According to Bobby, “bathhouses have been around since the Roman days and they will never go away. Hawks Gym & Spa is constantly changing to stay up with the times and keep it fresh and exciting for our guests.

“We’re not just a place for sex, we’re a place for relaxation, a place for socializing. Hawks is a clean and safe environment for all.” Bobby Townsend said.

“Bathhouses and private men’s social clubs give us something no one and nothing else can provide: the ability to be whoever we want to be. At Hawk’s you can become a completely different person if you want, and that is truly fine. It’s about being who you have always wanted to be, even if for only a few hours.”

Bobby Townsend said, “safety is our number one priority to all of our customers and guests who visit. We take safety and your confidentiality to heart. We’ve increased security by putting more cameras around the exterior of the building.

Most of all, we value keeping what you do inside of our four walls completely private. What we see, we turn our head. If we see you outside we will not approach you. If you approach our staff just to say hello that’s fine. A lot of people are on the down low or questioning their sexuality and feel comfortable that their privacy will be respected. We make it fun so that you have fun.

“At Hawks gym and spa we appreciate our staff,” concluded Bobby. “we’d like to give a shout out to our staff that works so hard every day 24 hours a day holidays to keep the facility clean fresh and safe their hearts are so dedicated ...

Thank you to Steve, David, Vincent, Christian, Mark, Armando, Jimmy, James, Thomas, Marty, Ronnie, Howard, Jason...

If it wasn’t for these individuals Hawks would not be where it is today. Their dedication is absolutely amazing and we very much appreciate it. Each of our employees are the face of our business. We take pride in customer service and how we treat our customers & guests .
